

Stakeholder Analysis

Author: Miroslav Denkov

Table of Contents

1. Introduction	1
2. Project Description	1
3. Stakeholder table	2

1. Introduction

In this document you will find information on stakeholders and their connection to the project. You will find stakeholders and their expectations at Table 1

2. Project Description

The project itself consists of the development of a  Python API to control the robot arm. The arm must be able to plan its trajectory without colliding with external equipment. The stakeholders want to know if  ROS2 could be leveraged for this task.
